

# 10/04/13 SITE UPGRADE UPDATE

By Holly Lisle

## MemberMouse, iDevAffiliate, and bbPress: MOSTLY Done

- MemberMouse is awesome, and Mark and I are about done setting up everything.
- bbPress has some strange issues that we're still working out.

The iDevAffiliate folks are installing iDevAffiliate because 1) I'm sick of software installation, and 2) They won't screw it up and I'm so fried at this point that I might.

**Too many loose ends yet to go live tonight. We're looking at October 11-13 as both reasonable and reachable.**
