Yeah. Well.

I got my big birthday present a couple of days early.

A Sony Reader. Red. Spiffy. WAAAAY spiffy.

And instead of being a good and faithful writer and getting my words, I’ve been sitting here working my way through the user’s manual and discovering that, yes, I CAN put the entire Think Sideways course on my e-reader, and yes, it is readable if I bump the text up one size.

And looking through the Sony bookstore, and though the Gutenberg Project e-book library and squinking along trying to find other sources of good e-books…

It’s an awesome present.

No words, though.

How about you?
