

2800 on Talyn

By Holly Lisle

Got 2800 words yesterday, and the coolest surprise. A character who'd left the book fairly early in the story suddenly reappeared, adding some great complexity and the possibility of interesting unforeseen complications, as well as some depth.

And I woke up this morning after having the most interesting dream about fog. I think that dream is going to play a part in the next Tor 250,000 word novel.
