

52 Revision pages on WARPAINT: WABWM#

Okay. Did 52 real pages of revision yesterday, but about a third were hand-written brand-new pages.

Which means I didn't get 52 MANUSCRIPT pages done.

So I'm now behind my worst-case scenario for making the 20th as my pub date.

And that was working until midnight.

I'll see if I can catch up today. I knew that section was going to need work. Just hoping my assessment of the latter third of the book being almost exactly as I want it holds true. If it is, I'm not really behind.

If it isn't...

Anyway.

Onward.

Write with joy. Kick ass, make names.
