Hawkspar is about to have a bad day get worse. She's been up to her elbows in other people's blood, she spent a few uncomfortable hours hiding in a box full of torture tools, and she's now on her way to discover her buddies figured she was dead and left without her, leaving her in enemy territory, with the murder of an important Feegash diplomat about to stir things up, and her with those funky-looking eyes guaranteed to make you stand out in a world without sunglasses.

Not a good time to be her.

Starting count: 129,013. Goal: 132,013.
