I'm amazed at how many hours this thing has managed to devour over the last few days. It's still in beta – all of the essential "how-to" stuff is still missing, but I'll be adding it over the next week or so. In the meantime, however, you can go take a look at Broegga and make comments and ask questions about what is there right now.

Meanwhile, **Talyn** is making nice strides. More on that after I get through this current tricky scene. Maybe a snippet, too.
