

Continuing the Silence

Sheila over at Paperback Writer has opened up comments.

Considering that the much of the reason she shut down her last weblog was that people turned into massive asshats, making her weblog into such a time-consuming, emotional sinkhole for her that it stopped being worth her effort, I do hope those of you who appreciate what she's doing over there will mind your manners.

Will I be following suit? No. Much as I love intelligent discussion and debate, it takes my attention away from my work. And getting pissed off at trolls costs me too much writing focus to be worth it. **Silent Bounce** will stay silent.
