By Holly Lisle

First, got 1087 words on **Create A World Clinic** yesterday, so hit my mark. ☐

I'm now doing two things: Mornings, I'm writing "**World**". Afternoons, I'm putting together the new version of **How To Think Sideways**, which will be **Ultra**.

## The BIG NEWS For Grads and Current Students of *How To Think Sideways* **LEGACY Version**

You folks have stuck with me for years. Your loyalty got me through hard times, your emails made me laugh (and occasionally cry), your Eureka moments made bad days into good one, and your progress and accomplishments thrill me. *I appreciate you.*

When **How To Think Sideways ULTRA** goes LIVE, I'm putting you into the new classroom (with Margaret's technical wizardry) with no upgrade fee, no extra charges...nothing. You'll get everything in the new formats, plus you'll get all the new materials, the new surprise, and anything else I can think of to put in there. THANK YOU.

# BONUSES for *Think Sideways Direct* and *Think Sideways Premium* Students

The software Margaret built for me is COOL.

**If you're an HTTS DIRECT student, why do you care?**

Because it means **if you already own all the lessons** (or own enough that you'd prefer to *Bring Your Own Lessons [BYOL]*), you'll be able to upgrade to the BYOL version **How To Think Sideways ULTRA** and not be charged for them a second time. This is something the old software could never have done.

But what about if you're an **HTTS Premium Student**?

You'll ALSO be able to subtract your Premium membership from the cost of your upgrade to ULTRA. (Again, new software lets me do much more for my students).

## What's NEXT?

I'm going to be asking HTTS Grads (who know what the old versions included), what do you **still** need to know?

And I'm going to be asking current students and folks considering the course, what do you need to know?

We'll be talking about a new (additional) bonus course, your ideas, wishes, dreams, and hopes...

And before the course goes live, I'll let you in on the surprise.

But today I just wanted all of you who took the course, or are taking it, than when ULTRA debuts, I've got you covered.

## "What Happens If I Don't Upgrade?"

Apparently there's been some concern that folks who don't

upgrade will lose their boards, or their access, or...

No. I don't DO that to people. If you don't upgrade, absolutely nothing will change. You'll have exactly what you had before. ☐
