

Daily Digest Update

By Holly Lisle

The first daily digest went out with titles and links only. I'm sorry about that. The whole install process was fairly tricky, with a lot of path and cron stuff to get right, and I did not notice one configuration detail that I had to update to include body text. I've updated that now, but rather than do a bunch of testing that will hit you with extra digests, I'll wait and see if it works when mine arrives tomorrow morning. Here's hoping.
