Strictly a character night tonight—the scene's POV character has a thing for my MC…something I sort of knew. Developed last night's albatross analogy a bit further, dug into their relationship and how he hopes her visit to his dig will go.

Not the sort of night that sets the world on fire, but it was necessary and interesting. It sets up some important events I have planned later in the book, and will give them emotional impact.

That's me.

What about you?
