Biopunk.

Biopunk?

BIOPUNK!

Real genre, I write it, I have been writing it since the late nineties... *<le sigh>*

So how exactly did I miss this?

How did I not realize this was a thing that those of us who love science and genetics and SF and fantasy were writing?

That would be the Epic Fail.

Thanks, guys. You are helping me beyond words, and I'm gonna write you a kickass story as thanks.
