

Leaping in

By Holly Lisle

Back with Molly and Seolar in Copper House. Page one is always such an emotional leap, and it doesn't help that this is the third time I've made that leap on this book. But I'm moving, and the words are coming. Live and **Overcome** play in my headphones, looping endlessly, and the emotion of the song and the scene commingle to the point that I almost can't breathe.

I got official notice of my extension. I have to have this thing done and on Diana's desk February first. But I now have the time I need to do it, and do it right. I'm so relieved.
