Was up until about 3 AM working on “related stuff” for the WARPAINT launch.

Back in the seat this morning, going to see how much of the type-in I can get through. I’m still in the middle section where I essentially threw out one out of every two pages, and wrote one or two new ones in their places.

My goal today is simple. I’m on Page 118 of the manuscript. I want to be on page 218 when put the computer to sleep.

If you’re weekending with me, onward.

Let’s kick some ass.
