

# New Blog Added

By Holly Lisle

Bitch Novelist will go on the Writers' Blogs list for a while; I'll see how this particular weblog holds up. At the moment she's done only three posts, and while she looks like she might bring some interesting insights to the table, she also looks like she might just annoy the fuck out of me. But since in three posts she managed to interest me with what else she might say, I'll give her the benefit of the doubt. For now.

If you like this one, bookmark it independently. Unlike the other blogs on my list, it has not withstood the test of time. It might not be linked here for long.
