

Onward, Brightly

By Holly Lisle

Heard from Robin yesterday that she liked the proposal, and had sent it straight on to Claire. This never happens, so I'm hoping the fact that it did this time is a sign (no, make that SIGN) of good things to come.

I'm still doing the HTCBB manuscript slog. I'm reacquainting myself with the world at the same time, and envying the younger self who wrote that book. The tech and the set-up keep taking me by surprise; I had a lot more in there than I thought I did.

It's clear to me that I'm going to miss the hell out of my worldbuilding notes for that book.

And that when I get back into Cady II, I'm going to have to take really, really good notes. 'Cause, damn, it's not fun having to scramble through older books for details on the way things work.
