

Overhauling the site

As you might have guessed (by the fact that everything is broken), I'm overhauling the site.

I'm having a miserable, cussing, growling, horrible time of it.

On the bright side, the site now loads *fast*.

On the dark side – **everyfuckingthing else is dark side.**

EVERYTHING. The blog is not on its page. The first few articles are linked here on the front page, but the past twenty years of posts? Good luck finding those. I can't.

Writing Articles? Nope. Going to have to hand-link every single article on the Writing Stuff page.

Sidebars? Nope.

Plugins? Nope.

If I could go back, I'm so frustrated and angry and miserable trying to use documentation that doesn't answer my questions that I'd almost certainly return to the shitty, way-too-slow site.

But I can't. I knew I'd end up here, so I DELETED the old set-up so I couldn't go back.

So...

I'm too pissed off to work on this any further today. I'll come in, see if I can get a few things fixed tomorrow. My day off. Going to be a while before I have one of those again, I

think.
