

Post-book breather

I'm taking a couple of days off from writing. I have been sitting at the computer in the mornings just beating my head against a wall where **Midnight Rain** is concerned, and it finally occurred to me that, once again, I have attempted to jump into a project without taking a breather from the previous one.

I'm going to get a tattoo that says **Avoid Postbookum Depression! Take a few days off when you finish a book, stupid.** At some point, I'd think I'd remember to do this, but after twenty-five books, I now have to acknowledge that if I were going to, I would have by now. {shaking head}
