

Query Letters (That Made Me Writhe and Cringe in Horror)

By Holly Lisle

You'll note that I've added a number of new weblogs to my recommended list. This one, however, is in a class by itself. Query Letters I Love, filed here under Editors because I don't have a more appropriate place to put it, is a regularly updated collection of query letters for scripts. The "love" part should, however, be taken tongue in cheek.

The authors are posting anonymously, and hint that they're industry insiders. The query letters are certainly bad enough to be real.

Consider this site a part of your education as a writer. It's certainly been an education for me.
