

Rolling on ISY

By Holly Lisle

Got the words plus change on **I See You** today – I hit 20% of the book completed, which is a nice mark. Got to land heavily on one of the things that drives me nuts about women dealing with stalkers, too – the damned claim that if you change your life to protect yourself, restricting your movements, changing the places where you go, making sure doors and windows are locked at all times, etc. – this somehow means the stalker has won.

If you're **dead**, the stalker has won, and those who suggest he wins if you take steps to stay alive drive me utterly bugfuck.
