Kettan once again sees her alterself in the shadows, this time as a captive in hellish danger.

I just did a rough start on the next scene (titled above), and I’m not sure where it’ll end up. I want to get her into Story, but I don’t want to make it easy for her to get there. Writing this, though, I just had an idea—I’ll let it perk overnight and see what happens with it tomorrow.

Got 330 words, and really like the way this is going.

How are your words coming?
