

The Wreck of Heaven

By Holly Lisle

The Wreck of Heaven, cover art by Alan Pollack

The rrrn in the cover is named Baanraak. He's ... um ... not the hero. I love this painting – the colors are rich, the rrrn (you're thinking dragon, I know – and you'd be sort of right, but there's a historical context that is also a spoiler, so I won't go into detail) has the beautiful iridescence I hoped for, and the details are right. The top right corner is clipped because that's the way my editor sent the cover. I'd do another scan from an actual book later.

If you click the front cover image shown here, you can see the full wrap-around art.
