Added the category Trainwrecks & Ghosts under Books. This isn't a book title. It's descriptive. Trainwrecks are places where I was running along nicely when my career jumped the rails. These are generally single posts – to get the full story, you need to click on the month in which any trainwreck that interests you occurred, then read previous and following posts. Ghosts are books that I was working on that, for one reason or another, vanished into the ether. There's a 2002 juvenile back there with a bunch of chapter snippets, and as I continue with the reorganization, there will be others. I don't have a lot of ghosts floating on my hard drive, but I do have some, and watching the way they vanish is a little creepy.
