

WABWM: Continuing yesterday's scene with my newly essential guy

Slept in, read some Robert Crais, but now I'm going to finish the chapter that introduces my newly important character.

He made a big entrance. I'll have to refine these new scenes before I give the book to my content editor or send out ARCs, but he...well...he made a good first impression if you're willing to be flexible about your definition of good.

Sorry to be late getting this up. My life is words right now, and getting anything else done requires a total brain shift. Mostly, I'm not up to the effort.

Kick ass this weekend. Write with joy.
